

Bracknell R.F.C. Wifi Hotspot

Bracknell R.F.C operates a free, open WiFi hotspot providing Internet access for the use of members and guests.

To connect to the Wifi network look for 'BRFC_Hotspot' in your laptop, phone or tablets list of available networks and connect. There are no tokens, keys or passwords required. To access the internet open your devices' web browser and enter the address of any site you wish to visit. You will be automatically taken to the Bracknell RFC Internet Access Policy page. Simply accept the policy by clicking at the bottom of the page and you will continue to your chosen web site. You are also required to accept the policy before you can access other services such as email over the internet.

Please read the BRFC Internet Policy carefully

The BRFC Hotspot is an open network without security enabled meaning that no password or key is necessary to access it but equally data on the network is not encrypted. Your device will be visible to others on the network so you should take the usual precautions with respect to privacy and security.
